

source_region::wide_path

```
graph LR; A[source_region::wide_path] --> B[path::empty]
```

A diagram showing a flow from a source region to a path. On the left, a gray rectangular box contains the text 'source_region::wide_path'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'path::empty'.

path::empty
